PROFESSIONAL SUMMARY

Computer Science undergraduate with a strong academic record and hands-on experience building full-stack applications using the MERN stack, Java, and cloud technologies. Solid foundation in Object-Oriented Programming, Data Structures & Algorithms, DBMS, and Software Engineering practices. Strong written and verbal communicator with a track record of managing tasks independently and delivering on deadlines in Agile teams.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), Python, SQL

MERN Stack: MongoDB, Express.js, React.js, Node.js

Frontend: HTML5, CSS3, Bootstrap, TailwindCSS, Three.js

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, Mongoose ODM, MySQL, SQL

Tools & Cloud: Git, GitHub, VS Code, Postman, Figma, Power BI, AWS (EC2, S3, Lambda)

Concepts: OOP, Data Structures & Algorithms, DBMS, SDLC, UI/UX Design, Agile

EXPERIENCE

Web Development Intern

May 2026 – Ongoing

Mono Infotech

- Developing responsive web applications using HTML5, CSS3, JavaScript, and Bootstrap following Agile SDLC methodology.
- Communicated directly with a German client to understand requirements and translated them into clear specifications for the development team.
- Implementing RESTful APIs and integrating frontend with backend services for seamless user experiences.
- Writing clean and maintainable code following best practices and version control with Git.
- Performing functional and regression testing; collaborating with the team to deliver projects on schedule.

PROJECTS

HealthEase – Smart Healthcare Management System | *React.js* | *Bootstrap* | *Node.js* | *Express.js* | *MongoDB* | *JWT* | *REST APIs*

- Built a healthcare platform enabling appointment scheduling and patient record management with role-based dashboards; deployed on AWS EC2 with S3 storage integration.
- Implemented JWT-based authentication, medical history tracking APIs, and responsive admin dashboards using React.js.
- Published as IEEE research paper (co-author).

VITStay – Smart Hostel Management System | *React.js* | *TailwindCSS* | *Node.js* | *MongoDB* | *Three.js* | *JWT* | *bcrypt*

- Developed a hostel management platform with room availability, real-time updates, and complaint management features.
- Implemented JWT + bcrypt authentication, RESTful API routes, and responsive React.js + TailwindCSS interfaces.
- Integrated Three.js for 3D room visualization.

EDUCATION

B.Tech – CSE (Computer Science & Engineering), 2023 – Ongoing

Vellore Institute of Technology

CGPA: 8.55 | Coursework: Data Structures, Algorithms, OOP, Web Development, DBMS, Cloud Computing, ML, Software Testing

Class XII — 94.4%

The Millennium School, Indore | 2023

Class X — 96.2%

Chameli Devi Public School, Indore | 2021

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL – Marketing Analysis | **Top 5% nationwide**
- NPTEL – Machine Learning (supervised learning, neural networks, model evaluation)
- IBM Java Certificate – core Java programming and OOP
- AWS Cloud Practitioner Essentials – EC2, S3, Lambda, IAM
- Received 100% merit-based scholarship for Class 11 & 12
- Published IEEE research paper as co-author on HealthEase healthcare management system
- Member of Social Media Team, iCreate Club, Vellore Institute of Technology | Participated in Codeverse Hackathon and Techkriti IIT Kanpur
